Well Name						Township				Range				Dir Section				Subsection				Well Depth								Depth Completed								Date Well Completed							
						34				23				W 31				BDCDDDB				115 ft.								115 ft.								06/25/1996							
Elevation						921 ft.				Elev. Method						7.5 minute topographic map (+/- 5 feet)																													
Address																																													
Well						23315 7TH ST NE BETHEL MN 55011																																							
Stratigraphy Information																																													
Geological Material						From				To (ft.)				Color				Hardness																											
SANDY CLAY						0				15				BROWN				MEDIUM																											
SAND						15				30				GRAY				SOFT																											
CLAY & GRAVEL						30				58				GRAY				MEDIUM																											
CLAY & GRAVEL						58				105				BROWN				MEDIUM																											
WATER SAND						105				115				BROWN				MEDIUM																											
Open Hole																																													
Screen? ☒						Type				stainless				Make				JOHNSON																											
Diameter						Slot/Gauze				Length				Set																															
2 in.						10				4 ft.				110 ft.				115 ft.																											
Static Water Level																																													
15 ft.						land surface				Measure				06/25/1996																															
Pumping Level (below land surface)																																													
30 ft.						3 hrs.				Pumping at				40 g.p.m.																															
Wellhead Completion																																													
Pitless adapter manufacturer						WHITEWATER				Model				SU4X5.5																															
☐ Casing Protection						☒ 12 in. above grade																																							
☐ At-grade (Environmental Wells and Borings ONLY)																																													
Grouting Information																																													
Well Grouted? ☒						Yes				☐ No				☐ Not Specified																															
Material						Amount				From				To																															
high solids bentonite						3 Sacks				ft. 30				ft.																															
Nearest Known Source of Contamination																																													
100 feet						East Direction				Septic tank/drain field Type																																			
Well disinfected upon completion?						☒ Yes				☐ No																																			
Pump																																													
☐ Not Installed						Date Installed				07/08/1996																																			
Manufacturer's name						STA-RITE																																							
Model Number						10P4CO2J-				HP				0.5				Volt				230																							
Length of drop pipe						42 ft				Capacity				12 g.p.				Typ				Submersible																							
Abandoned																																													
Does property have any not in use and not sealed well(s)?						☐ Yes				☒ No																																			
Variance																																													
Was a variance granted from the MDH for this well?						☐ Yes				☒ No																																			
Miscellaneous																																													
First Bedrock						Aquifer				Quat. buried																																			
Last Strat						sand-brown				Depth to Bedrock				ft																															
Located by						Minnesota Geological Survey																																							
Locate Method						GPS SA Off (averaged) (15 meters)																																							
System						UTM - NAD83, Zone 15, Meters				X 479805				Y 5026578																															
Unique Number Verification						Address verification				Input Date				02/08/2010																															
Angled Drill Hole																																													
Well Contractor																																													
Torgerson, Art & Son						02203				TORGERSON, G.																																			
Licensee Business						Lic. or Reg. No.				Name of Driller																																			
Minneapolis Well Index Report														576724				Printed on 08/13/2026 HE-01205-15
